55% of all deaths from drowning take place within only three metres of safe refuge. Not what you want to hear if your employees work on or near water.

Those working in, on or near water are in a potentially hazardous working environment and water safety measures are only effective if you are aware of the risks.

This hands-on meeting will cover :-

Water related incidents - stats

Water dynamics (cold water shock)

Current standards and guidelines

Risks both in and out of water

Low risk ways to instigate a water rescue
(Shout/Reach/Throw)

High risk rescue and what is needed (Go/Tow/Halo)

Water Safety First Aid

This will be followed by a Practical Demonstration of rescue techniques.

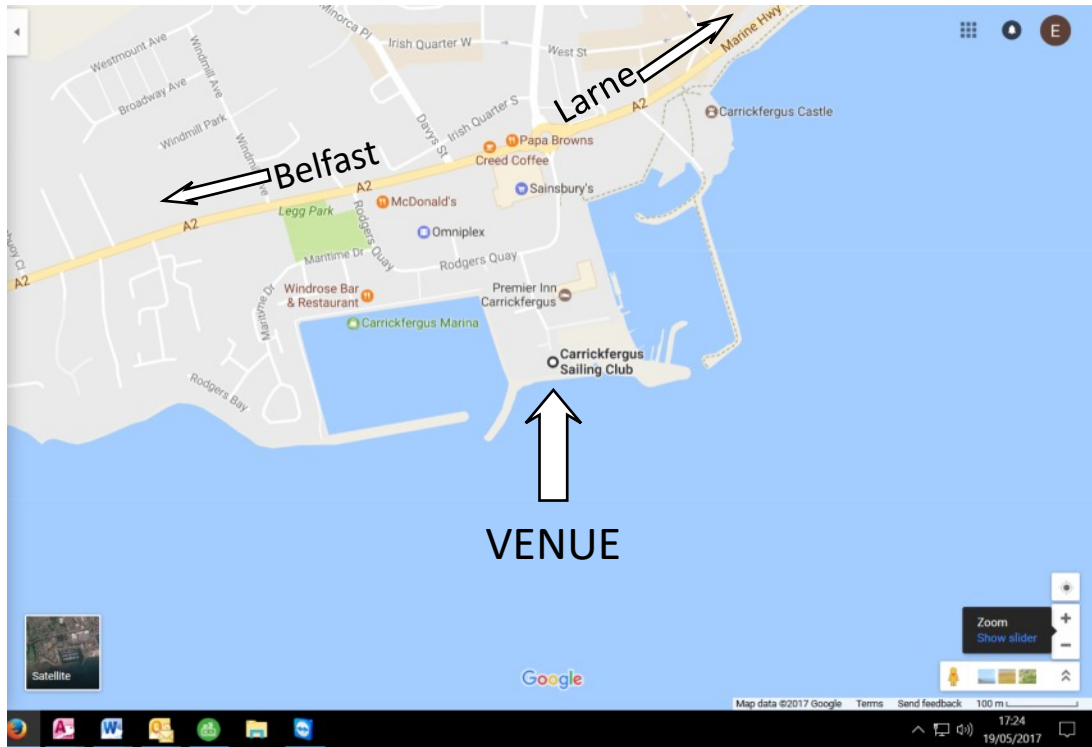

Like all NI Safety Group meetings this meeting is

FREE

And as always everyone is welcome whether a NI Safety Group member or not.
