# Monthly Meeting

## H & S Networking and Collaboration *Question & Answer Forum*

At work, it can sometimes seem like all we do is try to find solutions to problems.

Sometimes those problems are easy to resolve as they are within our skill set. Sometimes, however, we need to look outside for solutions.

As a group of health and safety professionals (with over 60 years of experience) there aren't many problems that one of our group hasn't encountered before.

That's what networking and collaboration is all about, learning from other professionals whilst at the same time sharing your knowledge and experience.

This meeting (which is different to our normal meeting) is geared towards creating an environment where we as professionals are able to communicate with peers to the benefit of all.

- Meet new contacts and learn from each other
- Gain insight into how other H & S professionals solve problems and arrive at solutions.
- Enhance your professional profile
- Improve your knowledge
- Put forward your ideas and solutions
- Establish H & S cluster groups
- Play your part in developing and benefiting from a network of H & S professionals

Got any Health & Safety queries/questions?

**If so, email them in before the meeting**

**VENUE:** CITB Training Centre, 17 Dundrod Road, Nutts Corner BT29 4SR
