MONTHLY MEETING

'Meet your colleagues' - H & S debate and discussion

As no one person has all the answers!

The key to success in Health & Safety lies in what other people think of you – the higher you are in their estimation the more you can influence their way of working from the shop floor to the Board Room. People skills are as important as technical competency.

Networking with colleagues is a great way to see how others use their skills when faced with similar challenges to you.

This meeting is geared towards exactly that. You'll get a chance to:-

- Meet others doing similar jobs in different sectors,
- Talk about the issues/problems facing us all in H & S,
- Get answers to your questions,
- See how NI Safety Group can best assist you,
- Let us know what topics/information you'd like to see/get.

Overall we hope you'll leave armed with some new and useful contacts, have found answers to some of your questions, see where and how to get information you need and feel invigorated to face the challenges we all face in our day to day workplaces.

Need questions answered - send them to info@nisc.org.uk before the day.
