MONTHLY  
MEETING

**YOU DECIDE:**

## ***The impact of safety decisions***

We make 100s of decisions every day but are they right (or wrong) and how will they affect others?

A decision is a choice made between alternative courses of action in a situation of uncertainty.

In his presentation Barry Neilson will uncover the DNA of decision making.

Areas he'll cover include:-

- What influences the decisions you make
- How do the decisions you make impact on your organisation (and beyond)?
- How do decisions made elsewhere in your organisation impact on you and your team?
- Ensuring your decisions take the whole organisation into consideration.
- A likely decision making scenario and the possible consequences.
- The decision making tree.
- "What happens if" and what do you do.

You'll hopefully leave this session with a different mindset.
