- Gap analysis and transitioning to ISO 45001
- Approach of the Certification bodies

Speaker Bio:-

Stephen Fulwell MA, BSc. (Hons), CFIOSH, FIIRSM, MIRM, DMS, Magnolia House Consultancy Ltd

Stephen works as a self-employed health, safety, environmental and risk management consultant operating throughout the world but primarily in the UK and the RoI.

He has lectured on health and safety, auditing and management systems at both Queen's University Belfast and Trinity College Dublin.

Stephen has also undertaken a number of research projects in the United Kingdom and Ireland on behalf of both government and European Agencies.

After 22 years auditing (from BS 8800 to ISO 45001) there isn't much Stephen hasn't encountered on his travels.

He was the original Safe-T-Cert Auditor and Trainer.

He is a Chartered Fellow of the Institution of Occupational Safety and Health and a Fellow of the International Institute of Risk and Safety Management.
